Apple WWDC 2016 Event

- WWDC is the annual Worldwide Developers Conference held by Apple in San Francisco, California.

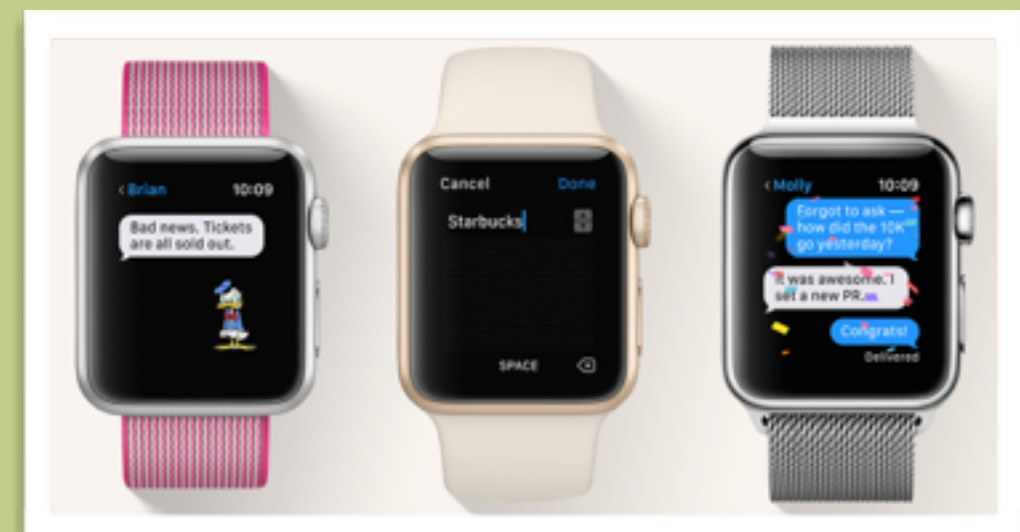

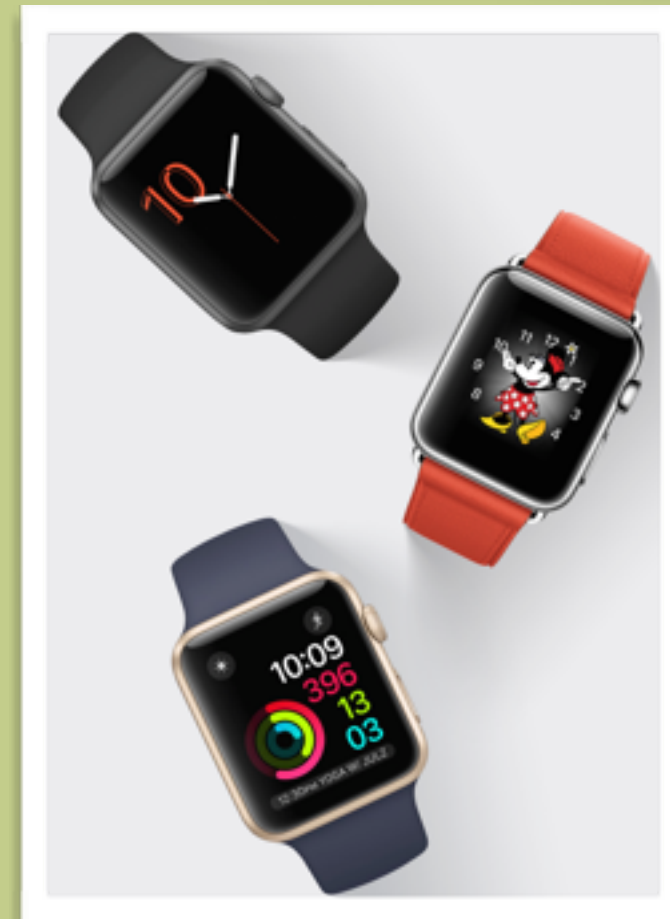

Apple WWDC 2016 Event

- Event was held at 3:00am this morning;
- 2 million apps on the App Store
- 130 billion app downloads
- Focused on the 4 major operating systems:
 - WatchOS
 - tvOS
 - OSX => MacOS
 - iOS
- Will go through the more interesting features coming later this year (Spring)

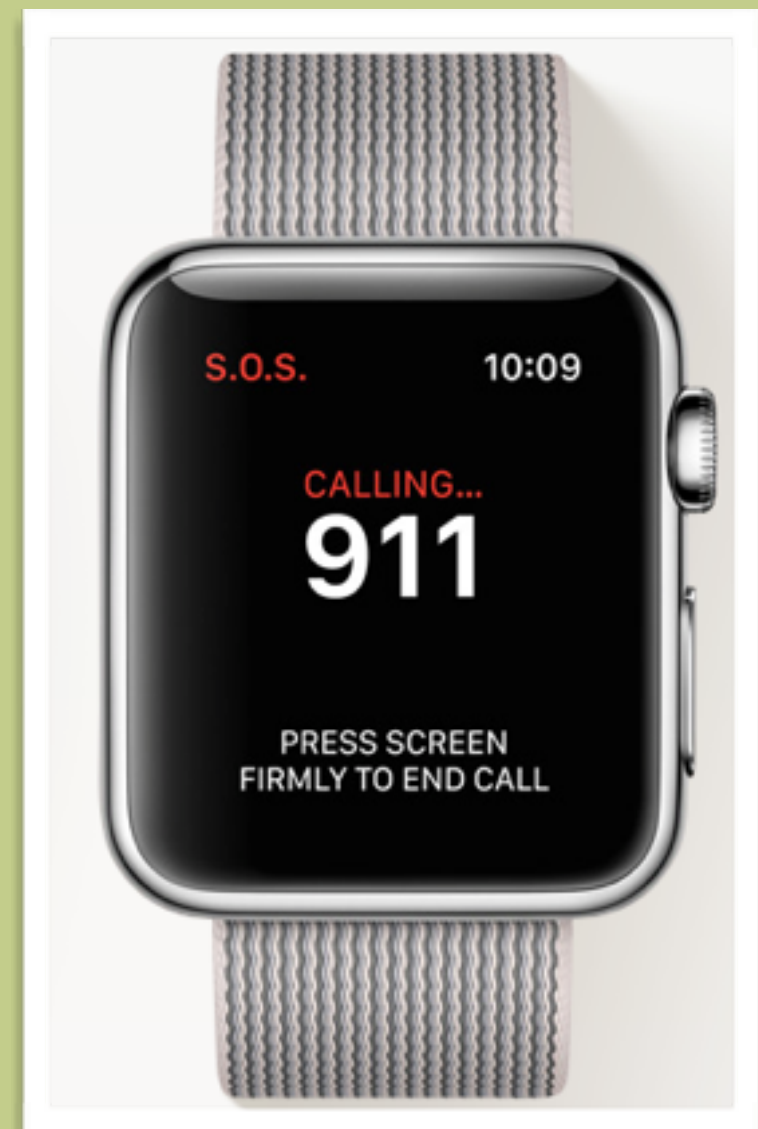

WatchOS 3

- Faster access to apps;
- New watch faces
 - Activity rings;
 - Minnie the Mouse;
 - minimalist face;
- More details in Workout app
 - Compete with friends;
 - Includes Breathe activity;
- Apple Pay within apps;
- Integration with HomeKit;
- Unlocks your mac when near it;
- Follows changes to iMessages (see iOS)

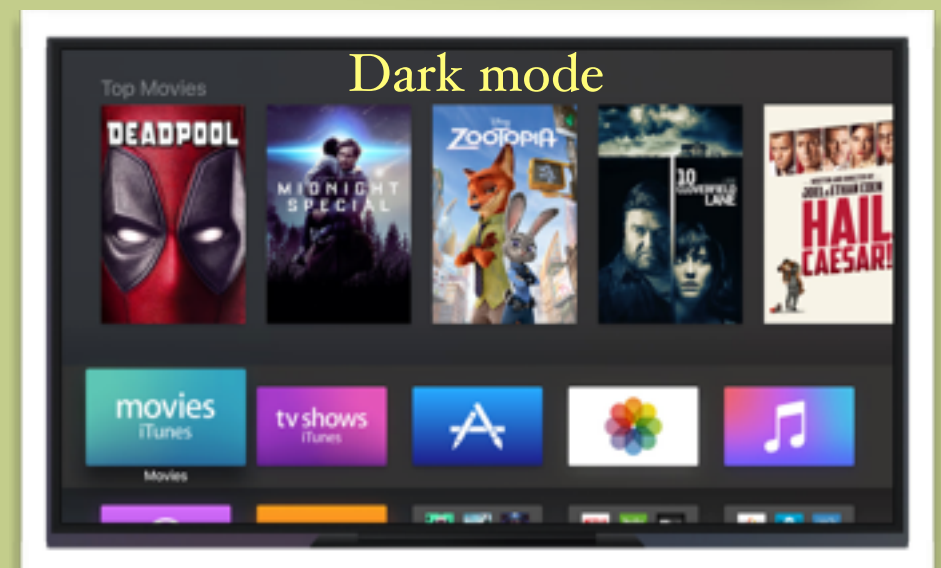

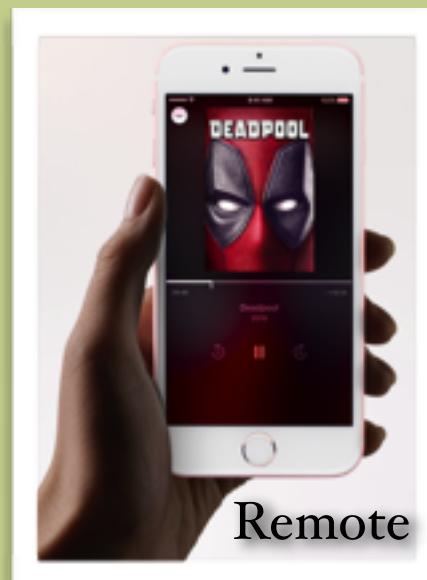

WatchOS 3: Killer Feature – SOS

- Press the side button to initiate an emergency call - medical or safety;
- Knows the right emergency number for wherever you are in the world;
- Can send message and details to your emergency contacts

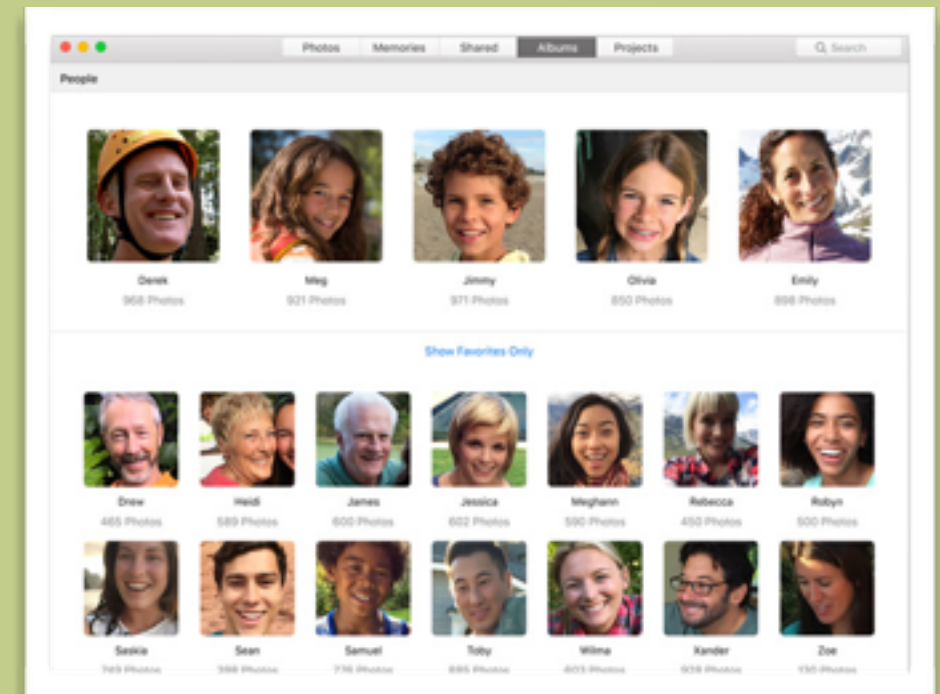

tvOS

- Dark mode;
- Updated Photos app;
- Use your iPhone to emulate the remote;
- Controls HomeKit throughout the home and integrates with Siri;
- Updated Music app.

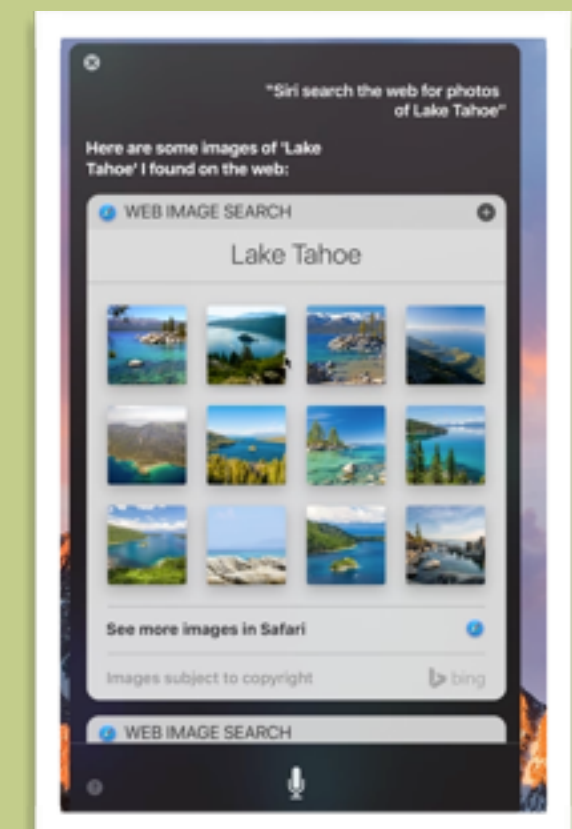

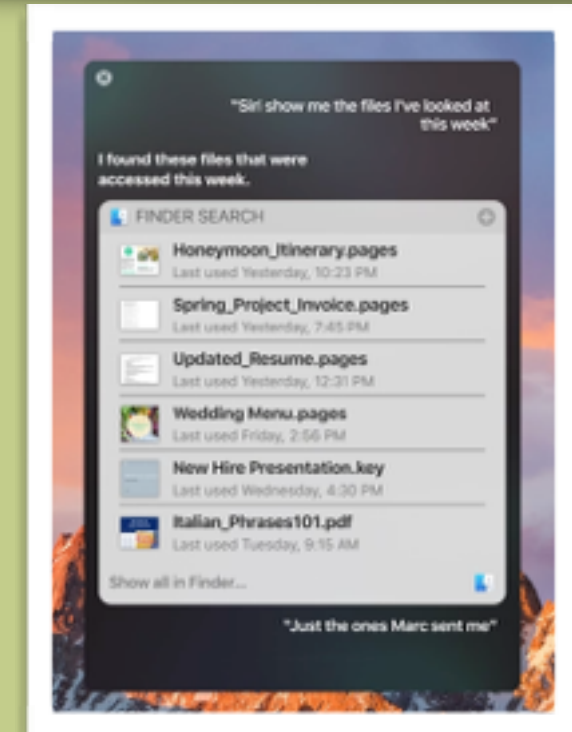

MacOS Sierra

- Photos app scans photos to arrange in new ways:
 - Memories - albums and movies;
 - Albums based on location and people involved;
- Apple Pay for the web;
- Copy and paste across devices;
- Desktop and documents folder across devices;
- Optimise storage;
- New Apple Music app

MacOS: Killer Feature – Siri

- Siri integrated into MacOS:
 - Tell Siri to do something while you are working;
 - Find files intelligently;
 - Pin results for later access;
 - Move search results directly into documents;
 - Utilises more complex intelligence.

iOS 10

- Rich notifications - raise to view;
- Music app update;
- Photos app update - Memories;
- Maps update - look ahead for traffic conditions;
- iMessages update - very flashy;
- Siri update and integration for 3rd party apps;
- Single Home app to integrate all HomeKit devices;
- **3rd Party access to key iPhone services.**

Apple NEWS App

- News collects all the stories you want to read, from top news sources, based on topics you're most interested in — so you no longer need to move from app to app to stay informed.
- News also combines the rich and immersive design found in print with the interactivity of digital media, letting you enjoy stunningly crafted articles that reflect the style of the publications they come from.

iPhone Photography Apps

“The best camera: Is the camera you have with you”

Chase Jarvis 2009

- Original iPhone had a 2mp camera that didn't take video natively;
- Current iPhone has a 12mp camera (optical IS on Plus) that can take slo-mo and 4k video;
- The top 3 cameras used on Flickr are iPhone cameras (6, 5s and 6s)

Using the Standard Camera App

Some Alternate Camera Apps

Although very capable, there are other apps that are better for specific circumstances...

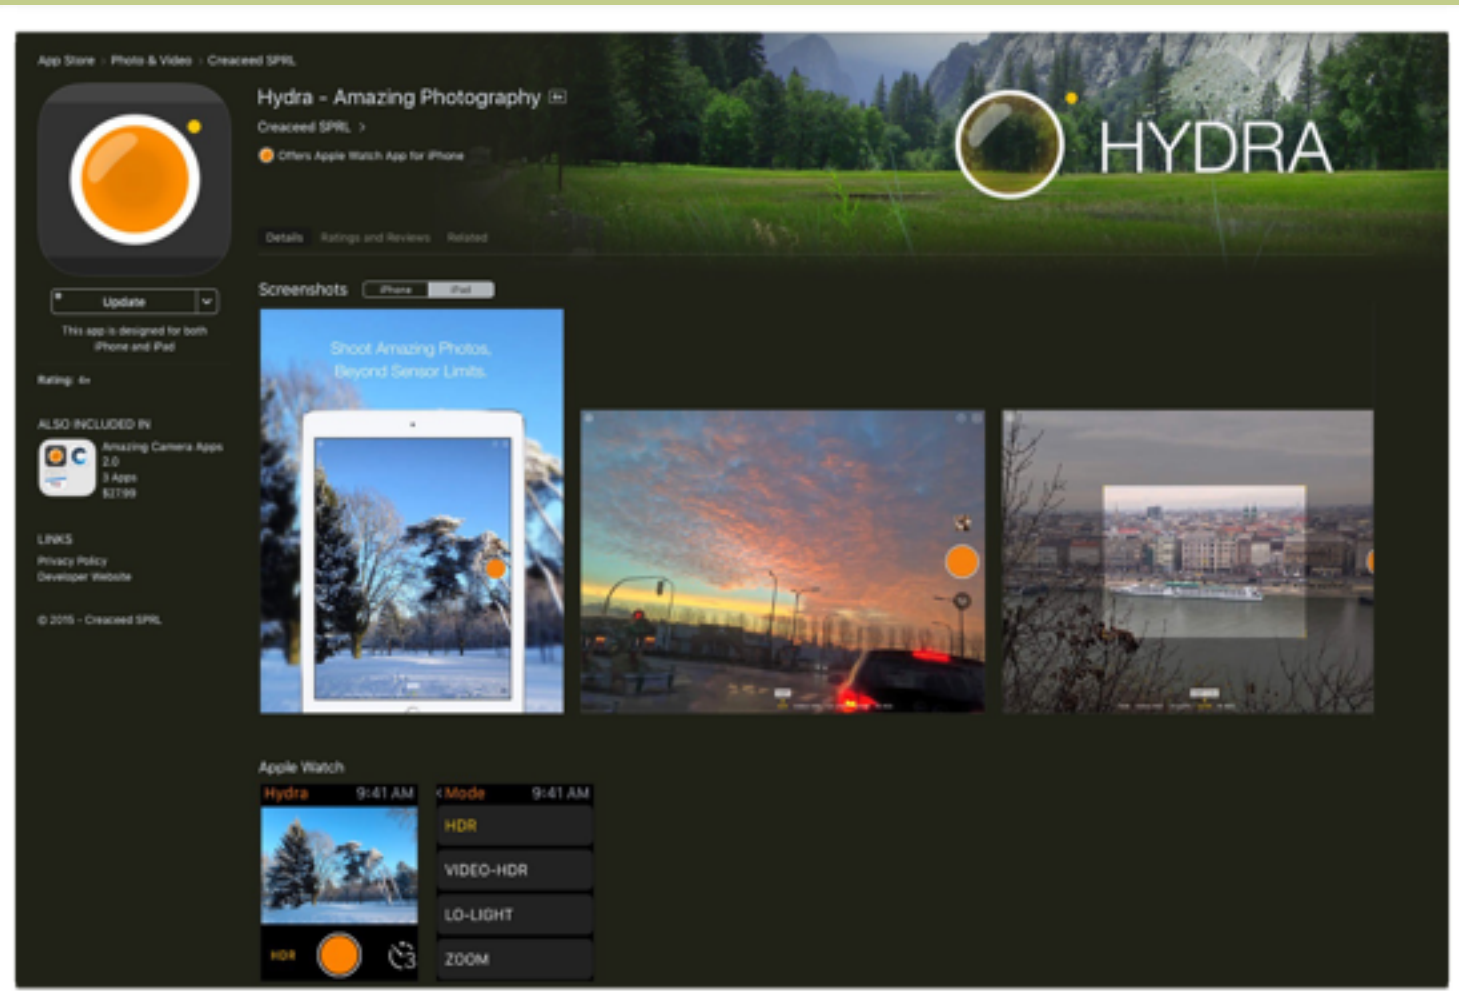

- Camera+ - more control over settings and more powerful image editing
- Hydra - Higher resolution (32mp) and improved low-light photos and video
- vividHDR - simple HDR photography that produces stunning

Camera+ (\$4.49)

- Similar functionality with added features and more powerful control over settings;
- Ideal for DSLR users who want more immediate control over photo taking;
- Allows for setting shutter speed to up to 30sec
- Has ultra-low ISO settings

Hydra (\$7.99)

- Uses multiple shots and composites them to:
 - increase resolution to 32mp;
 - provide true zoom capability NOT digital zoom;
 - improve noise in low light;
 - HDR photos and video.
